List of Tables

Table 1: Document version	4
Table 2: Policies.....	5

Revision History

The next table summarizes the changes of the present document based on the associated version number. The table is arranged from the newest version to the oldest.

Ver.	Date (YYYY-MM-DD)	Change Description	Author	Approved
See release change log for details.				

Table 1: Document version

1. Introduction

1.1. Purpose of This Type of Document

This document is a Software Release Note attached (SRN), with a Software Release.

The main purpose is to log the key information related for the software release. The information is collected in the chapter Release Information; in which can be found the customer name, project name, product, model year, date and time of the release, software project name, software version, etc.

The document provides the chapter Release Folder Structure that is useful to understand the Cisium folder structure as well as how to create the folder structure.

1.1. Policies

The next document applies the next policies:

Document Part Number	Document Description
CSM-0D2-0SW9A-0-V0	Embedded Software Release Policy
CSM-0D0-0D9B-0-V0	ASCII Character-Code for Name Convention
CSM-0D0-0D9A-0-V2	File Name Conventions in Cisium Repositories

Table 2: Policies

2. Release Information

2.1. Product

- Customer: 0.
- Project: 0E2.
- Product: 0E2.
- Model year: 0.
- Description: WiFi extension wire.

2.2. Hardware

This is the list of supported hardware:

- Hardware part number: CSM-0E2-0SW1A or Flyport
- D-link camera DCS-932L

2.3. Software

- Software project: CSM-0E2-0SW1B.
- Release date: see release change log for details.
- Software version: see release change log for details.
- Description: simple project based on HTML, CSS and Java script.

2.4. Web Server

- Provider: WampServer.
- Compiler name: WampServer2.2a-x64.
- Compiler version: 2.2.
